After murdering the tamily reported in my leriner despatch they left for the west toward Fort Totten. The people of the country who brought their families into Fort Pembins on the first scare are returning to their homes. Everything seems to be quieted again, except the commanding officer, who seems to think there are Indansa around who have not yet shown themselves. I will telegraph him to be wide awake and watchful and prompt and vigorous in action, where any is required, and to keep us fully losted. A company from each, Forts snelling and Ripley, are ready to move af an hour's notice if assistance is necessary.

The Indians in New Mexico Killing the Settlers and Driving Off the Stock. CHICAGO, July 14, 1874. A correspondent of the Inter-Ocean, writing from

Cimarron, New Mexico, under date of the 8th

Cimarron, New Mexico, under date of the 8th inst., says:—

The wave of Indian war in the Southwest has reached our usually quiet town. On last Sunday hostile Indians, sapposed to be Cheyennes, made a dash on Maiachy's ranch, on the Vermijo River, twelve miles from Cimarron, killed the herder and drove off about twenty-two head of horses. They made an attack the same day on two ranches on Crow Creek and Canadian River and hilled two other herders. They moved off in the direction of the Dry Cimarron River, and we have just now learned from messengers on Barlow & Sanderson's mail coach that there was an attack on the ranches and herding grounds along that stream. They seem to have had everything their own way, killing the people and driving off their stock at their pleasure. Sixteen persons are reported killed on the Dry Cimarron River making our loss in Coffax county minesten. One Indian is known to have been wounded on the Vermijo, and they have probably sustained no additional loss. They are reported to be still on the Dry Cimarron, and if this be true we fear that of our people in that part of the country NoSs Mays reaffers balls.

# THE INDIAN COURIERS' ENDURANCE.

From a letter from Custer's headquarters to the Bismarck (D. T.) Pribune, we extract the follow-

It is wonderful how rapidly news is transmitted among the Indians, and it is in the acc mplishment of this work that they show the most wonderful power of endurance. News is received that it is important should go to some distant tribe or village, and one or more Indians prepare for the work. A least is made and they eat and dance; eating as much as a dozen white men would eat; they call on their neighbors and eat again, and continue dancing and eating until nature, exhausted, forces sleep. After sleeping a few hours they eat again and are then ready for business. They mount the fleetest pony in camp and are off, riding day and night, wittacut food, water or rest, for five days sometimes. Arriving at their destination, they state the news and another round of leasting and dancing commences, to be followed, perhaps, by a trainp of 200 miles more in another direction, with It is wonderful how rapidly news is transmitted movement of Custer is reported, and long before his command reaches the Black Hills the Sioux will be apprised, not only of his approach but of

his strength.

A CREERFUL LETTER FEOM ONE OF THE RESIEGED.

The editor of the Joliet (ill.) Republican on the
Rish received the following letter from his brother,
who is an charge of Myers Ranch, on the Canadian
River, the scene of the late battle with the Indians of Texas:—

ans of Texas:

Wilco of Texas, July 4, 1874.

Dram Brother—At last I find opportunity for sending
you a few lines to let you know I am still in the land of
the living, aithough in a rather light its, as we are corzelled by Indians and have a skirmish nearly every day.
We are perfectly sait, however, as har as our lives are
concerned, for we are strongly fortified, have plenty of
previsions any nearly 2010 of the best fightning men on the
prairies, and can stand off 2001 "redskins" for six
masths. I send this by a man whom we are sending to
Indiae City, kan, for transportation to take away our
sous!

Nearly all the stock has been killed or sun off by the "redskins," and as for myself, they have cleaned me out "redekins," and as for myself, they have cleaned me out of everything but my guns and revolver. New don't let the cold chilis run in your back, for I are site yet, and we shall come out abead of the red devil yet.

They made an attack the other day, and the consequences were that eleven dead Indians lie scattered sround the ranch, and about fifty ponies, but they ran of all our stock. As near as we can ascertain they lost not less then fifty diffed and wounded, and about a hundred marks in all. So much for my first groune Indian fight.

He expatitated on the heanty of the scenery, and praised the Park Commissioners for the taste they had manifested in embellishing the Park and providing seats for the weary. Finally, without farther ado, he seized her by the neck, threw her on the grass plot and attempted a criminal assault. ### PENNSYLVANIA POLITICS.

Democratic Congressional Nominations-The Disputed Republican Candidature in the Fifth District.
PHILADELPHIA, July 14, 1874.

The democratic conventions met to-day in the various Congressional districts. In the First district General William McCandiess was nominated on the first pallot. In the Second district no one rum appeared. In the Third Samuel J. Randall was nominated by acclamation. In the Fourth

was nominated by acciamation. In the Fourth the Convention adjourned till August I without making any nomination.

The Republican City Central Committee took action to-day upon the protest of Leonard Myers as to the nomination for Congress in the Fifth district of A. C. Harmer, and adopted a resolution that Leonard Myers had refused to comply with the rules of the republican party and therefore could not be recognized as a candidate; and that this committee must again decide that there was but one candidate before the Republican Congressional Convention for the Fitth district, and that Hon. A. C. Harmer, having fully compiled with the rules of the republican party and received the votes of more than two-thirds of the delegation constituting the Convention, is duly nominated republican candidate for Congress in the Fitth district.

# THE MASSACHUSETTS SPHINX.

[From the New Haven Palladium.] General Butler still preserves the most exasperating silence as regards his political intentions Will he run for Governor? or will he run for Congress? are the questions political aspirants in Massachusetts are asking themselves. Meanwhile Massachusetts are asking themselves. Meanwhile it is given out that Collector Simmons in overhauling Custom House matters has tumbled upon some discoveries which can hardly fail to prove extremely annoying if not disastrous to the anti-Bulier faction. Money out of which the government had been deirauded was used as an anti-Bulier und, at the very time the anti-Bulier organs were protesting that they had to contend against the influence of the federal office-holders.

# GARFIELD'S "PRIVATE SECRETARY."

[From the Cincinnati Gazette.] We disapprove of Genera. Garfield's raid on the department clerks; but we have to ask, did the member of the committee have any private secretary? Did the clerk render him any personal

tary? Did the clerk render him any personal service at all? Did he serve anybody but the committee and the public? And we would like to know how many Senators and Representatives have really private secretaries who draw salaries as clerks of committees, and how many newspaper correspondents draw a public salarly through the same office? Now that we are growing virtuous, let us have a general overhauling of this thing. Then we may take up the practice of every head of a bureau having a horse and carriage and driver "borne on the rolls of the department." which one of our contemporaries, which is virulent on General Garfield, thinks all right.

### THE DEATH OF JULIUS STETSCH.

Investigation by a Coroner's Jury. An inquest was begun yesterday by Coroner Whitehill and a jury, in the Flith Precinct Station House, Williamsburg, into the death of Mr. Julius Stetach, bookkeeper for Henry Schwartz, No. 306 Broadway, New York, who was killed by a dummy of the South Side Railroad colliding with a car of the Nostrand avenue line at the corner of south Eighth and Fifth streets on Saturday afternoon last. At the recommendation of the jury James Townley, the driver of the horse car, who has been under arrest since the fatal occurrence, was admitted to bail in the sum of \$2,500.

### FOUND IN AN OUTHOUSE.

At eleven o'clock last night Officer Quigley, of the Eighteenth precinct, while patrolling his beat in East Twenty-third street, had his attention attracted to an outhouse in the rear of No. 349, from which came cries as from an infant in distress. On breaking open the door, which was locked, he found a bright little boy infant, scarcely a day old, stark baked. He kindly wrapped him in a hand-kerchief and proceeded to ascertain the whereabouts of the mother. The house is a large tenement, and every one professed ignorance as to whom the child belonged. It was then taken to Believne Hospital and given in charge of Warden Brennan. Early this morning several women were arrested on suspicion of abandonment. which came cries as from an infant in distress.

The property was found on the persons of Charles Williams and James Williams, of Williamsburg, both of whom were arrested yesterday afternoon at about two o'clock, at Third avenue and Seventeenth street, by Sergeant Warts and Special Officer Handy. They nad been noticed to act suspiciously, getting on and off a car, riding snort distances and then jumping out. The owners of the watches are invited to call and prove property.

While waiting for the train Mrs. Holland was taken with labor pains. Her husband applied to a Mr. Bernbardy, proprietor of the Long Island City Hotel, and, stating that his wife was about to be confined, asked for lodgings. Bernhardy refused him, stating that he gave no lodgings for such purposes. The husband frantically entreated, but the brute of a proprietor remained insensible to all entreaties. The moans of the poor woman could be heard the distance of two blocks. Officers Parks and Ward hearing the cries hastened to the woman's assistance, and conveyed her to officers Parks and Ward hearing the cries hastened to the woman's assistance, and conveyed her to a farm near the depot.
